---

## Summary

Analytical computer science student skilled in HTML5, CSS, JavaScript, Bootstrap, ReactJS, and AngularJS. Strong communication skills with a proactive approach to problem-solving. Dedicated to producing efficient, scalable, and user-friendly web applications.

## Project Experience

### Project 1: Online Bookstore Application

#### Full-Stack Development

- Developed a full-stack web application using Django for an online bookstore.
- Technologies Used: Python, Django, HTML5, CSS, MySQL
- Key Features: User authentication, book search, shopping cart, order management
- Responsibilities: Designed database schema, implemented back-end logic, developed front-end interfaces

### Project 2: Portfolio Website

#### Front-End Development

- Created a responsive portfolio website using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Technologies Used: HTML5, CSS (including SASS), JavaScript (ES6+), React.js, Bootstrap
- Key Features: Dynamic content sections, responsive design, interactive components
- Responsibilities: Designed and implemented front-end architecture, ensured cross-platform compatibility, and optimized performance

### Project 3: Real-Time Chat Application

#### MERN Stack

- Developed a real-time chat application using the MEAN stack (MongoDB, Express.js, Angular, Node.js).
- Technologies Used: HTML5, CSS (including LESS), JavaScript (ES6+), Angular, Bootstrap
- Key Features: Real-time messaging, user authentication, message notifications
- Responsibilities: Designed database schema, implemented back-end APIs, integrated front-end components

## Education

- Completed 10th from Sanskar Vidya Sagar School with 89.60%
- CBSE board, 2019 Completed 12th from Shivaji Science Junior College in 2021 with 88.5%
- Proficient in English and Hindi Language
